DAVID BOLLIER

May 30, 2014

To Whom It May Concern:

I wish to highly recommend Spoldzielnia Socjalna `Faktoria` for its work as its skillful translation services, promptly and conscientiously performed.

Two of my works have been translated by Spoldzielnia Socjalna `Faktoria` -- a lecture that I gave at the American Academy in Berlin in November 2012, and my recently published book, *Think Like a Commoner: A Short Introduction to the Life of the Commons* (New Society Publishers). Both were translated into Polish.

The translators working with Spoldzielnia Socjalna `Faktoria` bring both a sophisticated sense of language as well as a substantive political and social knowledge of their topics. This obviously results in more faithful, engaging and "living" translations.

While I do not speak or read Polish, two acquaintances of mine who are Polish natives remarked upon the quality of the translation of my book. As the author, I naturally found this quite gratifying.

I am happy to recommend this talented team of translators for any projects that you may have in mind.

Sincerely,

David Bollier
